### **President's Message**

The Light and Shadow membership list continues to grow. Our newest member is Leon Sheikman who joined on Program Night in May. Leon is a techie, an inventor, and a very interesting guy to talk with. Our new members have been quite active in club activities. I previously noted how impressed I was that Nancy Asquith had taken a first, a second, and a third in her very first competition (April). Now, in this month's print results, Jan Cheung has done the same thing and that was Jan's first competitive effort too! Nancy placed in Nature Prints again this time. Mat Winchester had placements in both Regular and Creative Prints. His "Blue Triangle" had been made up for a Program Night assignment and drew such acclaim that he could know it was worth entering in competition. Finally, I want to mention Sonny Wallace. Sonny doesn't feel ready to compete yet but she did make up a nice entry for our "Food" assignment at last month's Program Night. As with some of our continuing members, Sonny values the learning experience and camaraderie more than the competition.

I have been making so much over our newbie's because they have been succeeding in the face of information underload (is there such a word?). The membership list hasn't been updated recently and there have been a lot of undocumented changes in the club rules over the past couple of years. That is about to change. First, your's truly is supposed to get out an updated membership list whenever we sign-up new members but I haven't done that since last August. Having such a list gives each of us the phone number or email address of any other member we might need to contact. So, I've asked John Zimmerman to make one up that includes everyone right through Leon. I will email it (to members only) once all the data has been verified. The second item regards the bylaws. For Light and Shadow these are called the "Operating Policies". They were last issued as printed copy in January 2002. That was before many of us were members. People on our Executive Board have been exchanging comments and ideas for a new revision of the policies since April. We have the document nearly finished now. I think we will be able to email it to the membership in early July. Bob Diamond has said we can also put it up on the web site and it will be available as a download from there as well. The Operating Policies contains things like the rules of competition, judging and point assignment, club structure (officers and chairs), and the coordination of interclub competition for Light and Shadow with the other five clubs in our council (6C). I think it is going to be helpful reading for both new members and old.

Jim Hawkins
